LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION MANDATORY LANGUAGE – TIER III
IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Moffat Water Supply Corporation has violated the monitoring and reporting requirements set by Texas Commission of Environmental Equality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the June to September 2016 compliance period we did not complete all monitoring or testing for contaminants and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminants we did not properly test for during the last year, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples will be taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When samples should have been taken	When samples were taken
Lead & Copper - Total	Once every 3 years	19 (should have taken 20)	From June to September 2016	September 27-28, 2016

What is being done?

We are working to correct the problem. For more information, please contact Moffat Water Supply Corporation at 254-986-2457 or 5460 Lakeaire Blvd., Temple, TX 76502.

Moffat WSC is required to take 20 water samples for Lead & Copper testing but only collected 19 of the required samples. The 19 samples collected tested to be safe and below the TCEQ maximum limits. Corrective action taken: TCEQ has instructed Moffat WSC to take 20 more Lead & Copper Samples once a year between June 1st & September 30th for the next 3 years.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e. people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Moffat Water Supply Corporation. Public Water System Number: TX0140028.

Date Distributed: December 20, 2016.
